

# Earol Swim® Tea Tree Oil

Earol Swim® Tea Tree Oil delivers a metered dose of a unique blend of Olive Oil & Tea Tree Oil into the outer ear finely coating the auditory canal creating a water resistant barrier.

Olive Oil & Tea Tree Oil have natural anti-fungal, anti-bacterial, anti-viral, and anti-infection properties and when combined with the pump action metered spray delivery system will help prevent the incidence of Trapped Water & Swimmer's Ear.

Please read the directions for use carefully before you use Earol Swim® Tea Tree Oil.

## **BEFORE USING A NEW BOTTLE OF EAROL SWIM® TEA TREE OIL.**

■ Before using a new bottle of Earol Swim Tea Tree Oil, warm in palm of hand, shake well, then press the actuator down 3 or 4 times until you get a spray (See Diagram b). When doing this do not point the actuator at yourself or anyone else. This procedure will prime the system and ensure the product is ready to use.

## **DIRECTIONS FOR USE**

- Apply Earol Swim® Tea Tree Oil to both ears before entering the water.
- Pull the upper ear or Pinna upwards and backwards (see diagram a)
- Holding the bottle in an upright position with the nozzle placed into the ear canal press the actuator firmly. (A single actuation per ear should be sufficient.)
- The actuator button (see diagram b) can be removed and rinsed in hot water after use and then seated back on the stem.
