

BODY X

UNDERGARMENT

HOLLOW FIBER

To achieve high thermal insulation without increasing weight, the BODY X and BODY 2X is made of a hollow fiber polyester. Inspired by the structure of the fur of a polar bear who lives under extreme environmental conditions. It insulates far better than a regular fiber because it is hollow and filled with air.

EXCELLENT WICKING

It's all about keeping warm and dry. The technically advanced fabric in the BODY X and BODY 2X has excellent moisture wicking properties. It is designed to pull moisture away from the skin by capillary action and out to the exterior of the fabric where it easily evaporates. The combination of the hollow fiber insulation and the excellent wicking properties creates an extremely warm and comfortable undergarment.

MODULARITY

We are all different. Not just the way we look, we also react differently to warm and cold, activity and rest. Therefore the undergarments are separated letting you choose different sizes and different insulations for the upper and lower body. Choose any combine you like.

TECHNICAL SPECIFICATION

PowerStretch Hollow Fiber | 90% Polyester & 10% Elastane | Anti Pilling ASTM D 3512, Grade 4.0 | Fiber: Hollow Filament | Excellent Wicking Properties | Gender Specific | Slim waist with cord | Thumb loop & Foot Strap | Pee hose prepared | Plastic free Packaging | Weight: BODY X 285g/m² | BODY 2X 665g/m²

Art No: Men's 035-1, Ladies 035-2
