

The Integrated Silicone Seal system (ISS) means that the suit is equipped with Silicone Seals that can be exchanged by the diver. The system also accepts latex seals.

# D1X

from a patented  
**revolution**  
to a new **evolution**

The D1X Drysuit is the new generation amazing suits based on the famous D1 Hybrid Waterproof developed, patented and released a couple of years ago. The patented D1 Hybrid was the first existing Insulated Constant Volume Drysuit. And has so far no followers from competitors to match its unique features offered to divers.

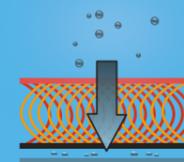

## HOW IT WORKS

**INSULATION** - It is all a matter of keeping a layer of insulating air between you and the cold water. The Patented 3D Mesh inner lining gets the job done because it works like a thermos bottle. It creates what we call a Constant Insulation Volume or C.I.V.

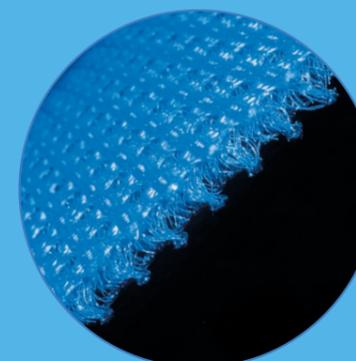

**VENTILATION** - The Patented 3D Mesh inner lining provides unrestricted air flow and prevents trapped air. It makes buoyancy control easier and controls the inner climate. It also dries out faster after every dive.

**CONDENSATION** - The constant distance and unrestricted air flow provided by Waterproof's 3D Mesh inner lining keeps moist air away from your body. As a result you will feel dry and warm. The 3D Mesh lining does not absorb any liquid and will stay dry.

**PRESSURE DISTRIBUTION** - The 3D Mesh has exceptional resistance to pressure. It provides real pressure distribution and keeps the distance constant to the outer shell. This virtually eliminates squeeze and cold spots.

### 3D Mesh Lining

The 3D Mesh lining works like the springs in a mattress, keeping the cold outer-layer of the suit away from the body.

**FIXED LINING** - The lining is fixed to the suit, which allows a slimmer-fitting suit and allows the body to move freely inside the lining. Since it is fixed, you have no obstacles when donning and of course, no overheating on land.

**DRESS CODE: LIGHT** - Since the insulation is built into the suit, there is no need for any heavy underwear. D1 Hybrid provides constant insulation at all depths.

SI TECH Soft Quick Neck Ring with preinstalled Silicone seal. A flexible ring system that follows the form of your body. Works also with latex or neoprene.

The Silicone neck seal is designed to be exceptionally comfortable.

The 3D Mesh lining works like the springs in a mattress, keeping the cold outer-layer of the suit away from the body.

The seal is mounted into the SI TECH QCS Oval ring system, which makes it really quick and easy to change if there is a broken seal. Thanks to the silicone excellent stretching capability there is less pressure on the wrists and therefore hands stay warmer.

"When the benefits are beyond expectations"

# D1X

## NEWLY DEVELOPED FEATURES IMPROVE THE PATENTED 3D MESH DRYSUIT CONCEPT

So why D1X - how do you make D1 Hybrid, the best drysuit ever, better? It is really all a matter of material development. It is an ongoing process; the future will always create new materials and this means progress. We also have done minor design alterations to respond to the feedback we got from the users. Waterproof has always been keen on keeping up with the latest to remain the leading suit producer in the diving industry. D1X have several new features based on new available materials.

- Improved rubber quality in boots. Five times more abrasion resistance.
- Soft and flexible neck ring "Quick Neck" from SI TECH. Fits; Silicone, Latex AND Neoprene neck seals.
- New fabric on the front panel. Features softer feeling and is extreme durable to abrasion.
- The new 50 Denier 3D mesh inner lining features softer feeling and more flex thus enhanced comfort.
- New construction on Suspenders offers far better and easier adjustment.
- All Velcro tabs are more flexible, with much better grip in TPA.
- New construction on the leg pockets. Stainless D-ring, replaced standard D-rings with two loops each.

**A SEAT THAT GRIPS**  
Polyurethane embossing provides a non-slip grip and abrasion protection.

**KEVLAR® REINFORCED KNEE PADS**  
Military Graded DuPont™ Kevlar® fiber reinforced Kneepads.

**CORDURA CROTCH**  
The Crotch is made in one piece Heavy Duty Cordura. No seams.

**IMPROVED 3D MESH INNER LINING 50D**  
The integrated patented 3D Mesh inner lining 50D is softer and more flexible than previous model. Still with the same outstanding insulation.

**WP INTEGRATED QUICK SEAL SYSTEM**  
The wrists are equipped with QCS Oval ring system from SI TECH. The preinstalled Silicone seals are extremely comfortable and easy to change.

**WP SILICONE NECK SEAL**  
The NeckSeal is fixed to the suit with a unique neck-ring. Easy to change. Features great chemical UV and ozone resistance paired with a high comfort factor.

**ANATOMICAL SCULPTING**  
All critical parts concerning mobility, like arms, legs and torso have been anatomically designed to enhance the liberty of action.

**WARMNECK**  
The unique warmneck solution from Waterproof with water drain valves and molded velcro tabs.

**DUAL CONVERTIBLE POWER POCKETS**  
Allow easy selection of huge capacity or slim profile based upon your need. With stainless steel D-Rings and cord loops.

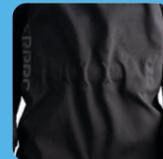

**ANATOMICAL KEVLAR® REINFORCED BOOT**  
With a new rubber formula for better durability. Angled for the best mix of durability and performance.

**FLEXIBLE NECK RING**  
The QUICK NECK ring from SITECH is a flexible ring for the neckseal. Follows the shape of your shoulders. Works with Latex, Silicone and Neoprene seals.

**CHILL GUARD**  
Keeps your body heat in and your undergarment out of the zipper for free operation.

**ELASTIC WAISTBAND**  
Exchangeable elastic waistband in the back.

**MOLDED VELCRO TABS**  
New TPU (eco) tab with molded velcro hooks, sticks only to the assigned Velcro part.

**WARM CUFFS**  
The arms are equipped with detachable warm cuffs that minimize heat loss at the wrists.

**SI TECH VALVES**  
Swivelling inlet valve and adjustable automatic outlet valve. Provided by SI TECH.

**IMPROVED INTEGRATED SUSPENDERS**  
Adjustable integrated suspenders for comfortable fit.

**APP**  
Waterproof's Advanced Performance Programme.

**INCLUDED DRY BAG**  
A Waterproof 1000 CORDURA bag is also supplied as standard, which can be carried as a backpack.

**INCLUDED SPARE SET OF WP SILICONE SEALS**  
One Silicone WristSeal and one Silicone NeckSeal is included in the suit.

**INCLUDED H1 H.A.V.S HOOD**  
A 5/7mm vented I-span hood is included.

MEN	Art. No. 6711
LADIES	Art.No. 6712

### AVAILABLE SIZES

MEN XS, S, S/t, M, M+, M/t, ML, ML/t, L, L+, L/t, XL, XL/t, XXL, XXL/t, 3XL, 3XL/t+\*  
LADIES XS, S, M, M+, ML, ML/t, L, L+, XL
